Why is online so great?

Our customers tell us they choose our online Sixclear Lucid LabVIEW Fundamentals Training for three main reasons:

1. **Convenience:** most training courses are delivered in-person, requiring you to miss work while you attend the training. Sixclear Lucid LabVIEW Fundamentals Training online is delivered in a self-paced video format allowing you to learn LabVIEW at your convenience, anytime, all you need is an internet connection.
2. **Affordability:** the cost of Sixclear Lucid LabVIEW Fundamentals Training is more affordable than all alternative full LabVIEW training courses of which we're aware.
3. **Quality:** the comprehensive course is developed by professional LabVIEW instructors with an average of 60+ weeks of LabVIEW instruction and 10+ years of LabVIEW experience. Plus, we've anticipated an online learner's needs. That's why you see each exercise comes with a solution video, which you can jump into at any step where you might get stuck. Open up and tile multiple video windows, jump from lecture, to exercise, to solution video seamlessly.

Simply put, there is no other e-learning course in the world that brings you first-rate LabVIEW training on your budget, at your pace. Give it a free Test Drive at sixclear.com/register.
